

CONTRACTOR+ HARNESSES

Redesigned for Today's User

FallTech® has redesigned the Contractor+ family of harnesses providing improved comfort and safety features along with a better fit to meet the needs of workers.

The Contractor+ family of harnesses now offers a more supportive, secure and sturdy fit while adding functional elements for all day comfort to meet the demanding needs of the job.

Upgrades to the Contractor+ family of full body harnesses include:

- **Chest Slides** – With integrated lanyard keepers that provides a lower profile and easier attachment points for lanyard connectors.
- **Waist Belt** – Improves longevity that also supports heavy tool bag loads.
- **Waist Pad** – Includes belt loops and is sewn into the torso straps keeping the waist pad from slipping.
- **Increased Padding** – Superior internal reinforcement on construction belted harnesses that includes improved comfort and usability.

 **FALLTECH®**
Fall Protection. Precision Engineered.

Contractor+

Along with the improvements, the Contractor+ still offers the features this family of harnesses has been known for, including:

- Breathable Padded Air Mesh Shoulder Yoke with Non-Slip Dorsal D-Ring Adjustment.
- Paired Single Loop Dual-Fastening Lanyard Keepers.
- Low-Profile Spring-Tension Torso Adjusters.
- 5.5” Torso-Sewn Waist Support Positioning Pad for Construction Belted Harnesses.
- Mating Buckle Chest closure with either Mating Buckle or Tongue Buckle Leg closure options.
- Available in Standard Non-Belted and Construction Belted models.
- Complies with:
 - ANSI Z359.11-2014
 - OSHA CFR1926.502, CFR1910.66
