

5048 Tool Set for FT-R+ SRL Cable Replacement

The FT-R+ Tool Set provides the essential hardware you need to replace your FT-R+ leading-edge cable efficiently, safely, and with precision. Engineered for durability and accuracy, each tool is built to withstand rigorous use, ensuring your FT-R+ SRL remains reliable and in top working condition for years to come.

The FT-R+ helps you:

Minimize Downtime:

Repair SRLs in minutes, not weeks, to keep operations running smoothly.

Reduce Costs:

Avoid the high cost and hassle of sending damaged SRLs to offsite repair centers.

Maintain Project Schedules:

Keep projects on track without the delays caused by SRLs being out of service.

The FT-R+ Tool Set Includes:

Spacer Tool

Screwdriver

Torx® L- Key
