

SPEC SHEET

Concrete and Steel Reusable Anchor Plate

COP02-10K

Design Specifications

High strength, reliable and reusable

Suited for temporary or permanent installation in steel structures

Hot Dip Galvanized for corrosion protection

Great for exterior or indoor use

Features and Specs

Tensile Strength 10,000 lbs

User Maximum Capacity 130-310 lbs

Material Rated Steel

Application Concrete or Steel

Anchor Type Type T

Relevant Standards
