

SPEC SHEET

Weld/Bolt-on Steel and Concrete Anchor

SBW01

Features

Can be installed in most structural steel and concrete substrates

Anchor is made of ASTM rated steel for reassured product reliability and quality

Can be installed and tied-off in multiple directions

Ready to use straight out of the bag

Bolt-on application allows anchor to be reusable

Design Specifications

Base thickness $\pm 1/4"$

Tensile Strength 5,000-lbf/22kN

User Maximum Capacity 310 lbs

Finish Zinc-plated

Relevant Standards

ANSI

Z359.1-2007

A10.32-2012

OSHA

CFR 1926.502

CFR 1910
