

APEX FOAM LINED SAFETY GLASSES

The Malta Dynamics APEX Foam Lined Safety Glasses provide dependable eye protection with enhanced comfort and coverage. Featuring a lightweight polycarbonate frame and scratch-resistant lenses, these glasses are built to withstand demanding jobsite conditions while maintaining a comfortable fit for all-day wear. The wrap-around design ensures wide-angle visibility and impact protection, making them a reliable choice for construction, maintenance, and industrial environments.

Equipped with a foam gasket, the APEX Foam Lined Safety Glasses create a secure seal that helps block dust, debris, and airborne particles without sacrificing breathability. Rated for high impact and tested to meet ANSI/ISEA Z87.1-2020 standards, they are available in clear, tinted, or mirror grey lens options and in single or 12-pack quantities—providing a versatile, cost-effective solution for crews requiring professional-grade eye protection.

KEY FEATURES

1. Scratch-resistant polycarbonate lens maintains clear vision in tough conditions
 2. Wrap-around design provides wide-angle visibility and impact protection
 3. Foam gasket helps block dust, debris, and airborne particles
- Lightweight, durable polycarbonate frame designed for long-lasting comfort
 - Rated for high impact performance on demanding jobsites
 - Available with clear, tinted, or mirror grey lenses in single or 12-pack options
