

WILDBOAR SELF-RETRACTING LIFELINES

The Malta Dynamics WildBoar Self-Retracting Lifeline is engineered to provide crews with the confidence and security they need while working at height. Built with jobsite realities in mind, this SRL features a rugged polymer housing and a durable galvanized steel cable that can withstand daily wear in the most demanding conditions. Its heavy-duty steel snap hook and integrated swivel connection allow for smooth movement and reduced cable twisting, making it easier for workers to stay mobile without compromising safety.

Beyond strength and durability, the WildBoar is designed for practical, everyday use. The streamlined housing makes it simple to handle and transport, while the internal components deliver consistent, reliable retraction. Crews can focus on their work knowing the lifeline will perform when it matters most.

KEY FEATURES

1. Polymer Housing
2. Galvanized Steel Cable
3. Steel Snap Hook

- Class 1 SRL rated for anchorage at or above the dorsal D-Ring
- Durable lifeline with impact-resistant polymer housing
- 3/16" galvanized steel cable for jobsite durability
- Heavy-duty steel snap hook and steel hardware for secure connections

PERFORMANCE SPECIFICATIONS

Worker Capacity Range	130-310 lbs. Max
Max Arresting Force	1,800lbf
Max Arresting Distance	Under 42 in.

MATERIALS SPECIFICATIONS

Cable	Galvanized Steel
Hook	Alloy Steel
Housing	High-Impact Resistant Polymer

FALL PROTECTION STANDARDS

ANSI	ANSI/ASSP Z359.14-2021
OSHA	1926 Subpart M, OSHA 1910, 1926.502, 1910.66

PART #	SIZE	WEIGHT
C4001	30'	10.54 lbs.
C4002	50'	16 lbs.
