

Black pack shown

OVERVIEW

The Hunter's Elite Hunt Essentials Pack bundles everything a hunter needs to stay connected from the truck to the stand: the Hunter's Elite Tree Stand Harness kit, the 30 ft Reflective Lifeline HEA4000 and the Lineman's Climbing Strap HEA2000. The lineman's strap clips to the harness's sewn-in lineman's loops to keep you attached while you hang or climb to the stand, the lifeline holds the prusik connection from the ground up, and the harness tether and tree strap take over once you are seated. The Hunter's Elite adds a lumbar support belt with MOLLE webbing, two built-in gear lanyards, a binocular and rangefinder connection point, full shoulder, back, waist and leg padding and elastic buckle covers for silence, with a 300 lb rated capacity shared by every rated piece in the pack.

KEY FEATURES

- Hunter's Elite Tree Stand Harness with tree strap and relief strap
- 30 ft Reflective Lifeline HEA4000, 300 lb capacity
- Lineman's Climbing Strap HEA2000

- **Lineman's Climbing Strap HEA2000: high-strength polyester webbing, steel carabiners and steel adjustment buckle, clips to the sewn-in lineman's loops, 1.4 lb**
- Instruction manuals for the harness and the lifeline (read before use)

THIRD-PARTY TESTING AND CONFORMITY

- Hunter's Elite harness, Intertek report 106189222CRT-002 (April 29, 2025) to ASTM F2337-20: feet-first PASS, maximum arrest force 1,605 lbf from a 72 in drop; face-first PASS; dynamic strength PASS (350 lb torso); labels PASS.
- Hunter's Elite Declarations of Conformity: MD3P334 (April 23, 2025) to ASTM F1772-17, Intertek 106152759CRT-001; MDL1P0365 to ASTM F2337-20, SGS 22-T068.
- Lifeline HEA4000, Intertek report 105348568CRT-001 (February 27, 2023), client-specified test: 220 lb weight dropped 3 ft in a choked orientation, arrested on all three samples, maximum arrest forces 2,293 / 2,476 / 2,476 lbf (reference), prusik slippage 5 to 6.5 in; static load of 8 times rated capacity held 2 minutes. DoC MDL1P0366.
- Tree Strap HEA1000: 300 lb max user weight, meets ASTM F2123 (Malta accessories spec sheet).

Use notes from the Malta manuals: inspect every component before each use; the harness is a single-fall product, return it after any fall (800-494-1840); remove the harness from service 5 years from purchase; under 16 must be supervised by an adult at all times; never connect to the stand, climbing aids or limbs; test the prusik before each use and never hold it while climbing. Warranty: one year from first use against factory defects, original purchaser.
