

PERMANENT ROOF ANCHOR

The Permanent Roof Anchor is designed specifically for permanent use on wood rooftops. Manufactured with two alloy steel weather resistant D-Ring ends. This 18" long anchor is composed of stainless steel for an exceptionally long life. The Malta Dynamics Permanent Roof Anchor is 100% compliant with all applicable OSHA and ANSI regulations. The Permanent Roof Anchor is manufactured to be easy to install and is ideal for both residential construction and maintenance work.

This metal roof anchor features a 360° swivel top connection point to allow the user to enjoy complete freedom with their motions and can access all sides of the roof without having to reposition and without tangling. Because of the 360° anchor point, this anchor can withstand 5,000 lbs. of force in ALL directions. Get rid of the invasive and bulky anchors of the past and enjoy the ease and convenience of the Malta Dynamics Standing Seam Metal Roof Anchor.

KEY FEATURES

1. Exclusive hole layout reduces damage to truss during install
2. Reliable D-Ring anchor points

- Lightweight and durable
- Fasteners Included
- Can be installed with screws or nails
