

Features	
Welded Steel Galvanized Anchorage Device	
The Anchor is of high strength, rugged and reusable	
Great for exterior or indoor use	
Fasteners included	
Design Specifications	
U-rod Cross Section	0.625"
User Maximum Capacity	310 lbs
Application	Metal, wood or concrete structures
Tensile Strength	5,000-lbf/22kN
Base Dimension	16" x 16" Square
Available Heights	12" 18"
Material	ASTM A36 Rated Steel
Finish	Hot dip galvanized
Relevant Standards	
ANSI	Z359.18
	A10.32
OSHA	1926
	1910

Part Number	R012	R018
Weight	29.3 Lbs	34.4 Lbs
Base Thickness	3/8"	3/8"
Post Diameter	2.8"	3.5"

*Applicable standards, compliance and/or regulations conformance may depend on various factors included but not limited to Federal/State/Local requirements, the type of work being done, application, substrate installation, particular anchor being used and/or potentially other factors. Check user manual for full details and with a qualified person before making purchase/install.
