

D-BOLT FORGED ANCHOR

Compact, robust anchor for
wood, metal, or concrete

D-Bolt anchors are versatile, small-footprint anchors suitable for wood, steel, or concrete substrates, and excel in applications that require multiple anchors in distributed locations. They are easily installed with hand tools, and their light weight allows the worker to carry several with them for installation as work progresses. Can be used for single-point tie-offs or with horizontal lifelines systems.

**HEIGHT SAFETY.
SIMPLIFIED.**
